Goring on Thames Parish Council

Street Lighting Contract 2024- 2030

Specification

Goring on Thames Parish Council invites you to tender for Street Lighting maintenance work for a period of six years from 1 Jan 2024 for listed locations within the village. There are a total of 211 lamps to be covered by the contract.

Schedule A

Services Required:

1. Carry out a maintenance visit to each lamp on the spreadsheet entitled 'list', clean lighting column bases, control boxes, and lanterns once in a three year period. To also replace lamps at the same time as the maintenance visit (LED lanterns cleaned only).

2. To repaint columns, brackets, and numbering, and to carry out electrical inspection, and testing once in a six year period during a contracted maintenance visit. Testing certification to be provided to the Council.

3. Failed lamps (other than LED) to be replaced free of charge during the contract period.

4. Attendance to repair reported faults within 5 working days – chargeable items to carry a 12 month guarantee.

5. Carry out a night time inspection of all lamps every two weeks during October to March and every four weeks during April to September.

6. Provide a dedicated working day contact for reporting and response to faults.

9 If requested with the tender the agreed prices may be increased (or decreased) on each anniversary of the start of the contract by an amount determined by the annual change in the retail prices index on the anniversary of the date of tender.
